Before proposing a project in one of these areas, please refer to [CSIRO](#) to ensure your proposal aligns with an active area of CSIRO research activity.

Special Features

Fulbright East Asia Pacific Regional Travel Program

Fulbright Scholars in the East Asia and Pacific (EAP) region have the opportunity to apply for funds to support short-term (3-14 days) travel to other countries in the EAP region for activities such as lectures, workshops, graduate or faculty seminars, master classes or recitals, curricular advising or panel presentations. EAP Regional Travel Program funding covers transportation only. Regional Travel Program activities/host sites should not be included in the initial Fulbright application. Scholars may pursue invitations for short-term activities in other EAP countries once notified that they have been selected for a Fulbright grant, and may only apply for travel program funds once they have actively started their Fulbright grant in their host country. Scholars on Flex grants are not eligible for the regional travel grant.

Degree Requirements
Ph.D. (or other terminal degree) required

Additional Qualification Information

Open to senior academics at the level of associate or full professor by the grant start date with a distinguished career in the proposed field. If you are not at the level of associate or full professor at the time of application, but will be by grant start, please include information about your career progression and timeline in the personal section of your project statement.
Those who are permanent residents of Australia, dual citizens of the United States and Australia, or living in Australia at the time of application are not eligible for the Fulbright Program with Australia.

Following the peer review process, short-listed applicants will be invited for a Skype interview with a Fulbright Selection Committee in Australia.

**Invitation Requirement**
A letter of invitation is required

**Additional Comments**

**Host Institution:** the [CSIRO](https://www.csiro.au) is Australia's leading multidisciplinary research organization with a mission to deliver impact for the benefit of industry, society, and the environment. The CSIRO is committed to excellence and innovation in scientific research, along with promoting international scientific liaisons, and dissemination of information about science and technology. The CSIRO has the following research flagships: agriculture; biosecurity; digital productivity; energy; food and nutrition; land and water; manufacturing; mineral resources; oceans and atmosphere. The Distinguished Chair will conduct innovative scientific research related to critical challenges facing the U.S. and Australia.

**Project Statement:** Applicants must clearly include in their project statement a brief (half page) personal statement to share their story, the trajectory they have followed and their plans for the future. This is separate from the facts present elsewhere in the application and may address their personal history, background, development and the opportunities to which they have, or have not been exposed. Use of headers in the documents to identify this section is strongly encouraged.
