Fulbright-St. Pölten University of Applied Sciences Visiting Professor of Computer Science and Security

Award Autogenerated Code
10363-AU
Region
Europe and Eurasia
Country
Austria
Award Type
Fulbright Scholar Award
Number of Recipients
1
Stipend
€5,000 per month (approx. $5,500, exchange rates may fluctuate)

Estimated Travel and Relocation Allowance
All grantees receive a travel and relocation allowance of €1,000 (approx. $1,100; exchange rates may fluctuate).

Candidate Profile
Professionals
Academics, all levels including early career
Postdoctoral
Activity Type
Teaching/Research
Application Deadline
Wednesday, September 15, 2021
Award Activity
A flexible combination of teaching and research activities that entails teaching a minimum of two courses (classes meet once a week for 90 minutes) in one of the degree programs in the field of information security offered at the St. Pölten University of Applied Sciences.

Grant-related activities may also include advising or supervising advanced students as well as developing joint research projects with faculty. The format and content of individual courses and research objectives are negotiated on a consensual basis with the host institution, contingent upon its needs and the grantee’s interests and expertise. The Department of Computer Science and Security is seeking individuals that are also open to making an active contribution to the research conducted at the department as well as to publishing jointly written research papers.

Award Length
four months
Award Dates
Grants should begin on October 1, 2022 or March 1, 2023.

Locations
St. Pölten University of Applied Sciences
St. Pölten is a city with 54,000 inhabitants located 40 miles west of Austria’s capital, Vienna. The city is located within convenient commuting distance to Vienna, with excellent connections to public transportation (25-minute train ride from Vienna with trains departing from Vienna every 30 minutes). The St. Pölten University of Applied Sciences is only a 12-minute walk from the train station and city center.

Flex Option
No
Discipline Type
Only applications in the following disciplines will be considered

Disciplines
Computer Science
Information Sciences/Systems

Areas of Interest
IT security/information, security or data science. Specializations may include digital forensics, network security, secure software development, industrial security, security management, privacy, big data, data science, machine learning, blockchain technologies, and intelligence-driven security.

Degree Requirements
Ph.D. (or other terminal degree) required

Additional Qualification Information
Teaching and research experience in relevant fields is preferred.

Additional Language Requirement
Instruction is in English.

Invitation Requirement
A letter of invitation is optional.

Additional Comments
The St. Pölten University of Applied Sciences offers bachelor's programs in IT Security and Data Science and master's programs in Information Security, Applied Research and Innovation in Computer Science, Cyber Security and Resilience, and Data Intelligence (subject to accreditation by AQ Austria). The university is seeking candidates with expertise related to the areas of specialization stated above. Consult the department's website for more information about the Department of Computer Science and Security.

Helpful Links
Potential candidates can contact Daniela Lohner at the Office for International Relations for further questions pertaining to relocating to Austria. For questions related to the field of research and the academic work conducted as part of the grant, contact Peter Kieseberg.
