Award Activity

The Scholar will collaborate with staff on the design and implementation of investigator initiated clinical trials in Ireland. Central to this activity will be participation on trial design, establishment and oversight. Depending on the Scholars interest, the focus of this engagement can be on any area of clinical research, from trial design, to statistical methodologies, to outcome measures including biomarkers. Recognising the ambition to strengthen relationships between US and Irish researchers, the scholar will also be invited to participate in mentoring of junior faculty and investigators. In addition the Scholar will contribute to the UCD taught MSc in clinical and Translational Research, by delivering lectures on clinical trials
