Fulbright Early Career Research Lectureship at the Department of Civil, Environmental and Mechanical Engineering at the University of Trento

Award Autogenerated Code
10641-IT

Region
Europe and Eurasia

Country
Italy

Award Type
Fulbright Scholar Award

Number of Recipients
1

Stipend

Monthly stipend of €1,333 for a total of €4,000 for three months (approximately $1,640 and $4,925; the amounts may change depending on exchange rate fluctuations). The award, which is a maintenance allowance for the entire period, is disbursed in Euro currency. In addition, the University provides free housing.

Estimated Travel and Relocation Allowance

International Travel allowance of €1,100 (approximately $1,350; the amount may change depending on exchange rate fluctuations). The allowance is disbursed in Euro currency.

Candidate Profile

Academics, all levels including early career

Activity Type
Teaching/Research

Application Deadline
Wednesday, September 15, 2021

Award Activity

The Fulbright Scholar is expected to:

- carry out research within the Department of Civil, Environmental and Mechanical Engineering (DICAM) of the University of Trento
- give lectures at advanced level (master’s and doctoral students) within the master’s degree courses in Architecture and Building Engineering, Civil Engineering, Energy Engineering, Environmental and Land Engineering, Environmental Meteorology, and the courses offered by the PhD School.

Teaching load may vary from 2 to 4 hours per week depending upon the type of course offered (master’s or PhD level). The total number of hours should not exceed 30 hours per semester, approximately. The average size of classes is between 20 and 40 students.

Other grant activity: Willingness to perform other duties such as thesis advising to master’s or PhD students.

Award Length
Three months

Award Dates
Grant beginning in January/February 2023.

Locations

Department of Civil, Environmental and Mechanical Engineering, http://web.unitn.it/en/dicam

University of Trento, https://www.unitn.it/en

Flex Option
No
Discipline Type
Only applications in the following disciplines will be considered

Disciplines
Architecture
Engineering
Environmental Sciences

Areas of Interest
Any area within the above disciplines.

Special Features
The Department of Civil, Environmental and Mechanical Engineering gathers together researchers of a broad range of areas, and the Fulbright scholar will have the opportunity to collaborate on research projects in one of the following areas: Environmental Resources; Security and Climate Change; Mechanics; Materials and Smart Structures; Surveying, Planning, and Design for Sustainable Places; Architectural Sciences; Modelling and Simulation in Engineering; and Sciences, Energy, and Green Technologies. Further information on the research areas can be found on the Department’s website. [1]

The Department is composed of around 70 professors and research fellows, most of whom come from research backgrounds in major universities and research centers worldwide.

The Department has several research labs, which cover the most significant research topics mentioned above.

Degree Requirements
Ph.D. (or other terminal degree) required

Additional Qualification Information
Five years of academic experience after awarding of Ph.D. Teaching experience is desirable

Additional Language Requirement
Lectures can be given in English and no interpreters are provided. Conversational Italian can be helpful to better integrate in the local community.

Invitation Requirement
A letter of invitation should not be sought.

Additional Comments

Academic calendar:
First semester: September - December; Second Semester: February-June
Holidays: two weeks in December (Christmas holidays), one week at Easter
Exam sessions: June-September, January-February

Special Award Benefits
A guest flat which can accommodate up to 4 people is available for hosting the visiting professor. The apartments are all
furnished and located in the city center or close to the Department; parking space available. Utilities such as electricity and gas are included; weekly change of linen is provided; internet connection is available. The cost of the flat, which ranges between approximately 700 and 1150 Euro per month, will be covered by the University of Trento.

Office space will be provided, including a landline telephone; the visiting scholar will have access to the university canteen and facilitated access to the university network of sport services and sports facilities (Uni.Sport).

More information about the university and the city of Trento is provided on our [international website](http://international.unitn.it/incoming/unitrento-international).

The Fulbright Scholar will be eligible for the Fulbright Inter-country Travel Grant Program, [http://www.fulbright.it/fulbright-intercountry/](http://www.fulbright.it/fulbright-intercountry/), and to receive a travel grant to lecture, hold workshops and conduct other relevant outreach activity at other Italian and European academic institutions.

**Language Proficiency Requirements**
None, English is sufficient.

**Career Profile**
Early Career Academics

**Scholars selected for this award will be required to:**

- Advise and/or mentor students
- Conduct a research project designated by the host institution
- Conduct a research project of the applicant’s choosing
- Teach graduate and/or undergraduate courses designated by the host institution
- Teach graduate and/or undergraduate courses of the applicant’s choosing
