

## Distinguished Scholar in Agricultural Technology and Education

### Award Autogenerated Code

10700-RS

### Region

Europe and Eurasia

### Country

Russia

### Award Type

Fullbright Distinguished Scholar Award

### Number of Recipients

1

### Distinguished Scholar Award Monthly Allowances

\$5,500-\$5,900

### Estimated Travel and Relocation Allowance for Grantee

\$3,550-\$8,550, depending on the number of dependents

### Estimated Book and Research Allowance

\$1,000 books and educational materials allowance; should be donated to the host institution (or other entity) upon grantee's departure.

### Additional Dependent Benefits

Reimbursement for dependent education expenses may be available on a limited basis, depending on funding availability and grant duration. Grantees should confirm with IIE that proposed expenses meet eligibility criteria; however, availability of funds may not be known until the end of the academic year.

### Candidate Profile

Distinguished Chair

### Activity Type

Teaching

### Application Deadline

Closed

### Award Activity

*The U.S. Scholar Program to Russia may operate at a limited capacity through the 2021-2022 academic year. We are accepting applications for the 2022-2023 academic year.*

The U.S. professor will teach in his/her area of specialization, which could be any area of agricultural technology and education, and will help shape the agricultural technology curriculum and teaching standards in Russian education. Teaching duties would equate to a 1.5 course load for the semester.

Scholars selected for this grant will be required to attend a mandatory Pre-Departure Orientation in Summer 2022.

### Award Length and Period

Four to nine months, depending on needs and interests of host institution.

One-semester grants may begin in September 2022 or early February 2023.

- Grants starting in September 2022 will be for four months in duration and grants starting in February 2023 will be for four **or** five months in duration.

Two-semester grants (9 months maximum) must begin in September 2022.

### Locations Text

Russian State Agrarian University - Moscow Timiryazev Agricultural Academy<sup>(1)</sup>

**Flex Option**

No

**Discipline Type**

Only projects in the following disciplines will be considered

**Disciplines**

Agriculture

Biology

Chemistry

Economics

Education

Engineering

Environmental Sciences

**Areas of Interest**

- Innovative Agricultural Technologies
- Biological Systems in Agricultural Engineering
- Sustainable Agriculture Farming Systems
- Precision Farming and Global Positioning Systems
- Conservation Tillage Systems
- Ecological Issues in Agriculture
- Nonpoint Source Pollution Control Engineering
- Food Safety, Quality and Security
- Biological & Environmental Transport Processes
- Food Process Engineering
- Integration of Engineering Systems within Confinement Livestock Operations
- Efficient use of Technologies in Dairy Operations Possible course titles in agricultural education include, but are not limited to:
  - Critical Thinking and Communication
  - Written, Oral, Visual, and Electronic Communication
  - Curriculum and Program Planning for Agricultural Education
  - Methods of Teaching in Agricultural Sciences/Agribusiness
  - Presentations and Sales Strategies for Agricultural Audiences
  - Personal and Professional Leadership in Agriculture
  - International Agricultural Education Development
  - Food Security in International Development
  - Role of Technology in Food Sovereignty
  - Problem Solving Strategies in International Development

**Special Features**

In addition to the Fulbright Distinguished Scholar award and stipend, Russian State Agrarian University will provide university housing for the scholar and his/her family, an office, and an assistant/interpreter. The host institution will also organize a cultural program for the Fulbright scholar and his/her family in Moscow and the Moscow region. The host institution will support the Fulbright scholar's travel to other Russian universities for conferences and consulting. The host university is the leader in agricultural engineering in Russia, and its alumni are in prominent positions across the country. The host institution will assist the Fulbright scholar in establishing professional contacts in the area of research and education with Russian colleagues from universities associated with the Ministry of Agriculture in Russia.

**Degree Requirements**

Ph.D. (or other terminal degree) required

**Additional Qualification Information**

Rank of associate or full professor required.

**Additional Language Requirement**

All teaching will be in English; additional language proficiency not required. For research, language proficiency sufficient to complete the proposed project is required. For applicants without local language proficiency, feasibility of conducting the project must be demonstrated in the project statement.

**Invitation Requirement**

A letter of invitation is optional.

**Additional Comments**

The Russian State Agrarian University - Moscow Timiryazev Agricultural Academy is interested in hosting a distinguished scholar in any of its faculties:

Agronomy

Education

Animal Science

Soil Science, Agricultural Chemistry and Ecology

Gardening and Landscape Architecture

Food Technology

Economics

Accounting and Finance
